

SAIF AL-JILANI

FRONT-END DEVELOPER

EXPERIENCE

Front-end Developer

Futeric (Amman, Jordan) on-site
Sep 2023 - present

I am working on developing complex systems related to facilitating the lives of users using the latest technology and applying the best practices to make the product more responsive, user friendly and maintainable

React Js Developer

Digisolfze (Amman, Jordan) on-site
Mar 2022 - Sep 2023

I was responsible to develop the UI/UX and the front-end web pages by using the best and latest technology and web tools
I worked on developing different e-commerce and websites for many companies in the world

Software engineer - Full Stack (internship)

Aspire (Amman, Jordan) remotely
Dec 2022 - Feb 2023

This program was given by Aspire company in Full stack JavaScript track and I attended the program to practice my programming skills along side my job as a web developer

Front-end Developer (internship)

Ministry of digital economy and entrepreneurship (Amman, Jordan) remotely
October 2021 - December 2021

I completed this three-month web development internship as part of my graduation requirements.

During the period of internship, I worked on the internal systems of the human resources department to make most of the tasks done digitally

Graduation Project

The World Science & Education University (Amman, Jordan)
2022

I developed a web application similar to Microsoft Stream through which lectures are made available, and the student can view the lectures of the rest of the other departments in the Information Technology college

EDUCATION

The world science & education university
Amman, Jordan
(2017-2022)

Bachelor's degree in Software engineering
GPA (Very Good)

English Access Micro Scholarship Program U.S. Embassy
(Amman, Jordan)
(2014)

I was chosen to attend the program for two years by the US Embassy in Jordan to improve my English
